REMARKS

This is intended as a full and complete response to the Restriction Requirement mailed September 19, 2006, having a shortened statutory period for response set to expire on October 19, 2006.

Claims 1-13 are pending in the application of which claims 1-13 are subject to restriction and/or election requirement.

The Examiner finds that the application includes the following patentably distinct inventions and requires restriction to one of the inventions under 35 U.S.C. §121.

- I. Claims 1-10, drawn to a video and multimedia acquisition and delivery system, classified in class 725, subclass 92.
- II. Claims 11-13, drawn to a method for dynamically responding to user requests for content, classified in class 725, subclass 93.

Applicants elect, with traverse, the claims of Group II, namely claims 11-13. Applicants respectfully request reconsideration of the restriction requirement, and request that the restriction requirement be withdrawn. Applicants believe that the search and examination of the entire Application can be made "without serious burden to the Examiner." (See MPEP § 803).

To the extent this restriction requirement is maintained by the Examiner, Applicants reserve the right to subsequently file a divisional application in order to prosecute the invention recited in the non-elected group of claims.

As such, and because of the above traversal, Applicants respectfully submit that the Right of Petition under 37 CFR §1.144 has been preserved.

Applicants have amended elected claims 11 -13. No new matter has been added.
